# University Master's Degree in Entrepreneurial Financing: Venture Capital and Private Equity - Official

This university master's degree will provide the knowledge and experience you need to **promote entrepreneurship**, with a special emphasis on funding as the key issue. Within the current macroeconomic climate, given the lack of existing credit, venture capital and private equity have become increasingly popular funding alternatives for companies in their own right. **Barcelona** shines in this regard, as it is home to numerous

organisations that specialise in venture capital, private equity and corporate finance, which provide support for and fund the development of new companies. Barcelona is now looked at in the same way Silicon Valley was in the United States at one time. At UIC Barcelona, we aim to **promote an entrepreneurial spirit** and the creation of companies in our society, which is why we offer you the best education in this field.

#### Rafael Tena

Director of the Master's programme. Partner at Ineo Corporate. Expert-advisor in the areas of entrepreneurship and startups. Member of the Board of Directors of several companies.

#### Yannis Pierrakis

Associate Director of the Master's programme. His research interests include entrepreneurial finance (venture capital, business angels, crowdfunding and cryptocurrency).

#### Fernando García

Partner Responsible for Private Equity at KPMG España. Extensive experience in advising national and international groups in acquisition and sale processes.
