

DIT GmbH sees itself as a digitalizer of the German housing industry. The core product is a tenant app for medium-sized and large housing construction companies and property management companies.

However, we not only develop software products for our customers, but also help them introduce and market new technologies as part of an overall concept. We are the contact when it comes to the topic of digital real estate.

### **Java Developer (m/w/d) in full-time**

We are looking for a Java Developer (m/w/d) in full-time.

#### **Your Tasks:**

- Work closely with our CTO and Scrum Team in shaping our tenant-app
- Play a leading role in designing the architecture of our backend software.
- Design Software and Architecture for our Java Backend, using the latest technologies.
- You will join our cross-functional team who practice scrum the right way
- You will make important architectural decisions
- Assess and evaluate technologies and tools to identify those fulfilling best our requirements and needs

#### **Requirements:**

- First, and foremost, is a teamplayer and loves shipping quality code!
- More than a year of work experience in designing, implementing and operating distributed software
- Has a proven and solid experience in the above technologies
- Who's been involved in a variety of web software development projects in the capacity of a back-end Java developer
- Has some experience with working on a micro-services architecture
- Has an interest in the topic of digital real estate
- Very good German skills

#### **We offer**

- A young, quick-witted and familiar team
- Exciting, responsible tasks
- Your daily work makes a difference in the housing industry
- Centrally located office, not far from the Alster
- Possibility to work in home office
- A fair salary and a lot of possibilities to grow and learn
- Full-time employment

If you can also identify with the product of DIT GmbH and want to be part of it, the digitalization of the German housing industry, then you have come to the right place. We offer you the familiar atmosphere of a start-up with short communication and transparent processes and a wide range of topics (smart home, chatbots etc.). If you would like to become part of our team, we look forward to receiving your application documents by e-mail to: [kai.teute@dit-digital.de](mailto:kai.teute@dit-digital.de)
